Policy & Education	N/A			
Funding & Resources	N/A			
Untapped Pools	N/A			

Consortium Structure Description:

The consortium is structured around the following goals:

- Identify jobs/skills in greatest need in the state
- Partner to improve and/or create training programs
- Build awareness throughout communities of the need for skilled workers
- Create a sense of excitement around the energy and utility industry in the state

Membership Structure/ Fees Description:

The consortium is composed of representatives from industry (investor owned utilities and public utilities, both energy and water), education (community college system), workforce (California State Workforce Investment Board, California Labor and Workforce Development Agency), and unions. There is a primary lead from each organization, with other local partners/staff represented by the lead. There are no fees for joining.

Meeting Schedule Description:

Meetings are held approximately once a quarter or as needed in person or via conference call for updates and to address timely issues.
