

# Your Link to Power Engineers of the Future is...

## [www.pes-careers.org](http://www.pes-careers.org)

PES-Careers is uniquely designed to help your company find the best candidates to fill the critical full-time or part-time power engineering positions or internships. If you're an employer or human resource recruiter in industry, government and education you are invited to subscribe to PES-Careers.

### Use PES-Careers to promote and enhance your recruiting methods...

#### **List in the Employer Directory Listing.**

Use your listing to tell students that your company hires students for power engineering positions. Use it for free advertising and on-line recruiting.

**Post Job Openings.** Allows your company to get the word out about new job opportunities.

**Search for students based on desired job applicant attributes.** Allows you to review and search student profiles and resumes.

*PES-Careers is offered by IEEE PES without charge.*
